Skills

- Machine learning
- Python programming
- Data analysis
- Statistical modelling
- Neural networks
- SQL databases
- Problem solving

Education

University Malaya
KL
Certificate of Higher Education: Bachelor of Artificial Intelligence
2029

Summary

Artificial intelligence student with practical skills in machine learning, Python, data analysis and statistical modelling. Supports projects involving neural networks and SQL databases, bringing careful problem solving and a strong appetite for hands-on learning in AI settings.

Experience
